Management Discussions & Analysis

COVID-19, ANNUAL OVERVIEW AND OUTLOOK

In 2021-22, the global economy is estimated to have grown 5.5%, the strongest post-recession recovery in 80 years. The growth is mainly attributed to the surge in demand following relaxation in COVID-19 related restrictions in many countries. Despite the spread of the new Omicron variant, the pandemic had limited impact on the economy given the robust policy support provided by governments, restricted nature of lockdowns and substantial vaccination coverage for majority of the population in most advanced economies and many emerging markets and developing economies (EMDEs). The Global Consumer Confidence Index² shows that globally, consumer sentiment remained strong throughout the year, reaching an all-time-high of 115 points (a figure above 100 is considered positive) in Q3. Although there were regional divergences, overall, confidence was driven by consumers' optimism towards personal finances, job prospects and spending. Concerns around health, job security and the health of the economy, were less intense than before. However, the recurring waves of the pandemic and rising prices did weigh in on consumer sentiment. To control inflation, many central banks tightened monetary policy, which impacted spending growth.

Given the situation, the world output is expected to grow by 4.1% in 2022 and 3.2% in 2023, according to January 2022 'Global Economic Prospects' report by the World Bank. However, the conference board forecasts that the global GDP will grow by 3.9% in 2022 and beyond this; the board expects a slower growth trend with an average growth of 2.5% between 2022 and 2026. During this period³, EMDEs are expected to contribute ~70% to the growth rate while advanced economies would contribute ~30%. Investment, especially in advanced economies, is expected to contribute substantially to global growth.

In FY22, India's GDP is estimated to grow by 8.3%, supported by the resumption of contact intensive services and ongoing monetary and fiscal policy support. The stronger recovery is also attributed to a fast-paced vaccination drive, enhanced mobility, and increased consumer confidence. Moreover, Government of India's focus on exports and investments is also likely to support the economic recovery. Sector-specific measures such as the Production Linked Incentive (PLI) scheme to drive domestic manufacturing, credit guarantee scheme for MSMEs, and increased spending on infrastructure are expected to be beneficial in driving long-term economic growth.

INDUSTRY OVERVIEW

Media & Entertainment

Within the M&E sector, Animation, Visual Effects, Gaming and Comic (AVGC) sector is growing at a rate of ~29%, while the audio-visual sector and services is rising at the rate ~25%; is recognised as one of the champion sectors by the Government of India. The AVGC sector is estimated to grow at ~9% to reach ~Rs. 3 lakh crore (US\$ 43.93 billion) by 2024, stated Union Minister of Commerce & Industry, Consumer Affairs & Food & Public Distribution and Textiles, Mr. Piyush Goyal.

According to BCG, India's SVOD subscriptions are expected to increase by 51% as compared to 2019 and are estimated to reach 90-100 million by 2022.

India's subscription revenue is projected to reach Rs. 940 billion (US\$ 13.34 billion) in 2023, from Rs. 631 billion (US\$ 8.95 billion) in 2020.

Key growth drivers included rising demand for content among users and affordable subscription packages.

The music industry is expected to reach Rs. 23 billion (US\$ 330 million) by 2023, from Rs. 15 billion (US\$ 210 million) in 2020 at a CAGR of 15% between 2020 and 2023. According to a study conducted by Kantar and VTION, an audience measurement and analytics company, Gaana, the streaming service owned by Times Internet Ltd., had 30% market share, followed by JioSaavn (24%), Wynk Music (15%), Spotify (15%), Google Play Music (10%), and others (6%) in 2020.

Growth of the sector is attributable to the trend of platform such as YouTube that continues to offer recent and video content-linked music for free, which is expected to drive the paid OTT music sector reaching ~5 million end-users by 2023, generating revenue of ~Rs. 2 billion (US\$ 27 million).

Finance & Investments

India has a diversified financial sector undergoing rapid expansion, both in terms of strong growth of existing financial services firms and new entities entering the market. The sector comprises commercial banks, insurance companies, non-banking financial companies, co-operatives, pension funds, mutual funds and other smaller financial entities. The banking regulator has allowed new entities such as payment banks to be created recently, thereby adding to the type of entities operating in the sector. However, financial sector in India is predominantly a banking sector with commercial banks accounting for more than 64% of the total assets held by the financial system.

The Government of India has introduced several reforms to liberalise, regulate and enhance this industry. The Government and Reserve Bank of India (RBI) have taken various measures to facilitate easy access to finance for Micro, Small and Medium Enterprises (MSMEs). These measures include launching Credit Guarantee Fund Scheme for MSMEs, issuing guideline to banks regarding collateral requirements and setting up a Micro Units Development and Refinance Agency (MUDRA). With a combined push by Government and private sector, India is undoubtedly one of the world's most vibrant capital markets.

OPPORTUNITIES & THREATS

The Company is mainly into the business of investments in Shares & Securities, funding to corporate entities apart from its set business i.e. studio renting as well as income from music uploaded on YouTube.

Opportunities & Threats

The Indian M&E sector is expected to grow at a CAGR of 13% and the key contributors to this growth will be digital, films and television (together adding 65% of the growth), followed by animation and VFX (14% each) and online gaming (7%).

The growth in the digital infrastructure is also growing by leaps and bounds. As per the findings, India has 795m broadband connections, over 500m smartphones and 10m connected TVs, apart from 170m active TV connections. 390 million Indians played online games, 150bn streams of online music were consumed, 40m Indian households paid for 80 million online video subscriptions and 400 million subscribers consumed bundled content in 2021. The number of screens is expected to reach 1bn by 2024/25.

India is among the largest content producers in the world and is fast becoming the content back office of the world. According to Ashish Pherwani, EY India media & entertainment leader: "India has always been a different kind of media and entertainment market, up top with the rest on technology and ahead of the pack when it comes to digital adoption."

The global COVID-19 pandemic has emerged as a "black swan" event and will require extraordinary measures from governments across the globe to re-ensure economic stability.

Globally, the pandemic has infected thousands of people in at least 190 countries and territories, according to the World Health Organization. As the immediate containment of the virus requires firm measures of quarantine and isolation, this has disrupted world economy in an unprecedented way.

The Organisation for Economic Co-operation and Development (OECD) has halved the global gross domestic product (GDP) growth projection for 2020 due to the virus outbreak. Based on when the pandemic is likely to come under control, several economic scenarios indicate global recession of varying magnitudes.

The Indian capital markets sector will have to deal with the crisis in a manner never seen before. With the thrust on ensuring business continuity/contingency plans, this sector need to emerge as responsible institutions and ensure the safety and security of their employees, customers, and the society.

RISKS AND CONCERNS

JMD Ventures Ltd. (JMD) has exposures in various line of business. JMD are exposed to specific risks that are particular to their respective businesses and the environments within which they operate, including market risk, competition risk, credit risk, liquidity and interest rate risk, human resource risk, operational risk, information security risks, regulatory risk and macro-economic risks. The level and degree of each risk varies depending upon the nature of activity undertaken by them.

MARKET RISK

The Company has quoted investments which are exposed to fluctuations in stock prices. JMD continuously monitors market exposure in equity and, in appropriate cases, also uses various derivative instruments as a hedging mechanism to limit volatility. In regard to the music segment, new digital equipments are being introduced almost on every day. The invention of digital tools has changed the experience of listening music for music lovers. But these improved equipments need a lot to be invested and it is challenge for the industry to keep it up to date. Old recording tools do not have any commercial value or demand in current market scenario.

LIQUIDITY AND INTEREST RATE RISK

The Company is exposed to liquidity risk principally, because of lending and investment for periods which may differ from those of its funding sources. Management team actively manages asset liability positions in accordance with the overall guidelines laid down by various regulators. The Company may be impacted by volatility in interest rates in India which could cause its margins to decline and profitability to shrink. The success of the Company's business depends significantly on interest income from its operations. It is exposed to interest rate risk, both as a result of lending at fixed interest rates

and for reset periods which may differ from those of its funding sources. Interest rates are highly sensitive to many factors beyond the Company's control, including the monetary policies of the RBI, deregulation of the financial sector in India, domestic and international economic and political conditions and, inflation. As a result, interest rates in India have historically experienced a relatively high degree of volatility.

The Company seeks to match its interest rate positions of assets and liabilities to minimize interest rate risk. However, there can be no assurance that significant interest rate movements will not have an adverse effect on its financial position.

CYBER SECURITY RISK

In the last few years, technology has evolved manifold and so have the risks attached to it. The proliferation of business data beyond data centres to the cloud, social media and digital platforms for B2B and B2C connect are impacting cyber security. In addition to data loss, cyber-attacks can impact business operations, machinery and human assets, and result in legal and regulatory liabilities.

DIGITAL ADVANCEMENT RISKS

Digital technologies are changing the way companies operate while creating new opportunities to improve efficiencies, and enhance customer experience and employee involvement. Adoption of such technologies requires management initiative, employee commitment and cultural transformation.

HUMAN RESOURCE DEVELOPMENT

The Company recognizes that its success is deeply embedded in the success of its human capital. During 2021-2022, the Company continued to strengthen its HR processes in line with its objective of creating an inspired workforce. The employee engagement initiatives included placing greater emphasis on learning and development, launching leadership development programme, introducing internal communication, providing opportunities to staff to seek inspirational roles through internal job postings, streamlining the Performance Management System, making the compensation structure more competitive and streamlining the performance-link rewards and incentives.

CORPORATE SOCIAL RESPONSIBILITY INITIATIVES

The provision of the Companies Act, 2013 relating to CSR Initiatives are not applicable to the Company.

COMPLIANCE

The Compliance function of the Company is responsible for independently ensuring that operating and business units comply with regulatory and internal guidelines. The Compliance Department of the Company continues to play a pivotal role in ensuring implementation of compliance functions in accordance with the directives issued by regulators, the Company's Board of Directors and the Company's Compliance Policy. The Audit Committee of the Board reviews the performance of the Compliance Department and the status of compliance with regulatory/internal guidelines on a periodic basis.

Independent Auditors' Report Standalone Ind AS Financial Statements for the year ended 31st March 2022

To the Members of JMD Ventures Limited

Report on the Audit of the Standalone Ind AS Financial Statements**Opinion**

We have audited the accompanying standalone financial statements of JMD Ventures Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2022, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity, the Statement of Cash Flows and notes to the standalone Ind AS financial statements, for the year ended on that date, and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the standalone financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2022, the profit and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for opinion

We conducted our audit of the standalone Ind AS financial statements in accordance with the Standards on Auditing specified under section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Ind AS Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the independence requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone Ind AS financial statements.

Emphasis of Matters

We draw attention to Note 31 to the accompanying financial statements, which describe management's assessment of uncertainty relating to the effects of the COVID-19 pandemic on the Company's operations. Due to COVID-19 pandemic and the lockdown and other restrictions imposed by the Government and local administration, the audit processes were carried out based on the necessary records made available by the Management through digital medium.

Our opinion is not modified in respect of this matter.

Information Other than the Standalone Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Corporate Governance and Shareholder's Information, but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the standalone Ind AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Ind AS standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone Ind AS financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone Ind AS financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company's financial reporting process.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. Based on the circumstances and facts of the audit and entity, there aren't key audit matters to be communicated in our report.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone Ind AS financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the Company to express an opinion on the standalone financial statements.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of JMD VENTURES LIMITED ("the Company") as of March 31, 2022 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting of the Company.

Meaning of Internal Financial Controls with reference to Standalone Ind AS financial statements

A Company's internal financial control with reference to these standalone Ind AS financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of standalone Ind AS financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the standalone Ind AS financial statements.

Inherent Limitations of Internal Financial Controls with reference to Standalone Ind AS financial statements

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future

periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, adequate internal financial controls over financial reporting with reference to these standalone financial statements and such internal financial controls over financial reporting with reference to these standalone financial statements were operating effectively as at March 31, 2022, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

1.1 Statement of compliance

The financial statements have been prepared in accordance with the provisions of the Companies Act, 2013 and the Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) issued by Ministry of Corporate Affairs in exercise of the powers conferred by section 133 read with sub-section (1) of section 210A of the Companies Act, 2013. In addition, the guidance notes/announcements issued by the Institute of Chartered Accountants of India (ICAI) are also applied along with compliance with other statutory promulgations require a different treatment.

The financial statements for the year ended March 31, 2022 of the Company is the first financial statements prepared in compliance with Ind AS. The date of transition to Ind AS is April 1, 2017. The financial statements upto the year ended March 31, 2017, were prepared in accordance with the accounting standards notified under the Companies (Accounting Standards) Rules, 2006 ("Previous GAAP") and other relevant provisions of the Act. The figures for the year ended March 31, 2018 have now been restated under Ind AS to provide comparability.

1.2 Basis of preparation:

The financial statements have been prepared on the historical cost basis except for certain financial instruments that are measured at fair values at the end of each reporting period.

Fair value measurements under Ind AS are categorized into Level 1, 2, or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company can access at reporting date
- Level 2 inputs are inputs, other than quoted prices included within level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the valuation of assets or liabilities

1.3 Presentation of financial statements:

These financial statements of the Company are prepared and presented in accordance with Indian Accounting Standards ("Ind AS") notified under the Companies (Indian Accounting Standards) Rules, 2015, as amended and other relevant provision of the Act as amended from time to time and presentation requirements of Division II of Schedule III to the Companies Act, 2013, (Ind AS compliant Schedule III), as applicable to the financial statements.

Amounts in the financial statements are presented in Indian Rupees rounded off to zero decimal places as permitted by Schedule III to the Companies Act, 2013. Per share data are presented in Indian Rupee to two decimal places.

1.4 Revenue Recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured and there exists reasonable certainty of its recovery. Revenue is measured at the fair value of the consideration received or receivable as reduced for estimated customer credits and other similar allowances.

Income from arbitrage comprises profit / loss on sale of securities held as stock-in-trade and profit / loss on equity derivative instruments is accounted as per following:

- i. Interest income is recognised in the Statement of Profit and Loss and for all financial instruments except for those classified as held for trading or those measured or designated as at fair value through profit or loss (FVTPL) is measured using the effective interest method (EIR).

The calculation of the EIR includes all fees and points paid or received between parties to the contract that are incremental and directly attributable to the specific lending arrangement, transaction costs, and all other premiums or discounts. For financial assets at FVTPL transaction costs are recognised in profit or loss at initial recognition.

The interest income is calculated by applying the EIR to the gross carrying amount of non-credit impaired financial assets (i.e. at the amortised cost of the financial asset before adjusting for any expected credit loss allowance). For credit-impaired financial assets the interest income is calculated by applying the EIR to the amortised cost of the credit-impaired financial assets (i.e. the gross carrying amount less the allowance for expected credit losses (ECLs)). For financial assets originated or purchased credit-impaired (POCI) the EIR reflects the ECLs in determining the future cash flows expected to be received from the financial asset.

- ii. Dividend income is recognised when the Company's right to receive dividend is established by the reporting date and no significant uncertainty as to collectability exists.
- iii. Fee and commission income and expense include fees other than those that are an integral part of EIR. The fees included in the Company statement of profit and loss include among other things fees charged for servicing a loan, non-utilisation fees relating to loan commitments when it is unlikely that these will result in a specific lending arrangement and loan advisory fees.
- iv. Profit / loss on sale of securities are determined based on the FIFO cost of the securities sold.
- v. Profit / loss on FNO Segment and Commodity transactions is accounted for as explained below:

Initial and additional margin paid over and above initial margin for entering into contracts for Equity Index / Stock Futures / Commodity Spot Trading/ Currency Futures and or Equity Index / Stock Options / Currency Options, which are released on final settlement / squaring-up of underlying contracts, are disclosed under "Other current assets". Mark-to-market margin-Equity Index / Stock Futures / Currency Futures representing the amounts paid in respect of mark to market margin is disclosed under "Other current assets".

"Equity Index / Stock Option / Currency Option Premium Account" represents premium paid or received for buying or selling the Options, respectively.

On final settlement or squaring up of contracts for Equity Index / Stock Futures / Currency Future, the realized profit or loss after adjusting the unrealized loss already accounted, if any, is recognized in the Statement of Profit and Loss. On settlement or squaring up of Equity Index / Stock Options / Currency Option, before expiry, the premium prevailing in "Equity Index / Stock Option / Currency Option Premium Account" on that date is recognized in the Statement of Profit and Loss.

As at the Balance Sheet date, the Mark to Market / Unrealized Profit / (Loss) on all outstanding arbitrage portfolio comprising of Securities and Equity / Currency Derivatives positions is determined on scrip basis with net unrealized losses on scrip basis being recognized in the Statement of Profit and Loss and the net unrealized gains on scrip basis are ignored.

- vi. Other operational revenue represents income earned from the activities incidental to the business and is recognised when the right to receive the income is established as per the terms of the contract.

1.5 Intangible Assets:

Intangible assets are recognised when it is probable that the future economic benefits that are attributable to the asset will flow to the enterprise and the cost of the asset can be measured reliably. Intangible assets are stated at original cost net of tax/duty credits availed, if any, less accumulated amortization and cumulative impairment. Direct expenses and administrative and other general overhead expenses that are specifically attributable to acquisition of intangible assets are allocated and capitalized as a part of the cost of the intangible assets.

Intangible assets not ready for the intended use on the date of Balance Sheet are disclosed as "Intangible assets under development".

Intangible assets are amortised on written down value method over the estimated useful life. The method of amortization and useful life are reviewed at the end of each accounting year with the effect of any changes in the estimate being accounted for on a prospective basis.

An intangible asset is de-recognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from de-recognition of an intangible asset are recognised in profit or loss when the asset is derecognized.

1.6 Property, Plant and Equipments

Freehold land is carried at historical cost. All other items of property, plant and equipment are stated at historical cost less depreciation less impairment loss, if any. Historical cost comprises of purchase price, including non-refundable purchase taxes, after deducting trade discounts and rebates, any directly attributable cost of bringing the item to its working condition for its intended use.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognized when replaced. All other repairs and maintenance are charged to statement of profit or loss during the reporting period in which they are incurred.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separated items (major components) of property, plant and equipment.

Depreciation methods, estimated useful lives and residual value:

Depreciation is provided on written down value method over the estimated useful lives of the assets which in certain cases may be different than the rate prescribed in Schedule II to the Companies Act, 2013, in order to reflect the actual usages of the assets.

The asset's residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period. The asset's residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

Class of Assets	Useful life as prescribed in Schedule II of Companies Act, 2013 (in years)	Useful life as followed by the Company (in year)
Computers	3	3
Furniture & Fixtures	10	10
Office Equipments	5	5
Vehicles	8	8

The assets' residual values, useful lives and method of depreciation are reviewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with carrying amount and are recognized as income or expense in the statement of profit and loss.

1.7 Impairment of Tangible and Intangible Assets other than Goodwill

As at the end of each accounting year, the Company reviews the carrying amounts of its PPE and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If such indication exists, the PPE, investment property and intangible assets are tested for impairment so as to determine the impairment loss, if any. Goodwill and the intangible assets with indefinite life are tested for impairment each year.

Impairment loss is recognised when the carrying amount of an asset exceeds its recoverable amount. Recoverable amount is determined in the case of an individual asset, at the higher of the net selling price and the value in use.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pretax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If recoverable amount of an asset (or cash generating unit) is estimated to be less than its carrying amount, such deficit is recognised immediately in the Statement of Profit and Loss as impairment loss and the carrying amount of the asset (or cash generating unit) is reduced to its recoverable amount. For this purpose, the impairment loss recognised in respect of a cash generating unit is allocated first to reduce the carrying amount of any goodwill

allocated to such cash generating unit and then to reduce the carrying amount of the other assets of the cash generating unit on a pro-rata basis.

When an impairment loss subsequently reverses, the carrying amount of the asset (or cash generating unit), except for allocated goodwill, is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss is recognised for the asset (or cash generating unit) in prior years. A reversal of an impairment loss (other than impairment loss allocated to goodwill) is recognised immediately in the Statement of Profit and Loss.

1.8 Employee Benefits:

i. Short term employee benefits:

Employee benefits falling due wholly within twelve months of rendering the service are classified as short term employee benefits and are expensed in the period in which the employee renders the related service. Liabilities recognised in respect of short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in exchange for the related service.

ii. Post-employment benefits:

- a) Defined contribution plans: The Company's superannuation scheme, state governed provident fund scheme, employee state insurance scheme and employee pension scheme are defined contribution plans. The contribution paid/ payable under the schemes is recognised during the period in which the employee renders the related service.
- b) Defined benefit plans: The employees' gratuity fund schemes and employee provident fund schemes managed by board of trustees established by the Company, the post-retirement medical care plan and the Parent Company pension plan represent defined benefit plans. The present value of the obligation under defined benefit plans is determined based on actuarial valuation using the Projected Unit Credit Method.

The obligation is measured at the present value of the estimated future cash flows using a discount rate based on the market yield on government securities of a maturity period equivalent to the weighted average maturity profile of the defined benefit obligations at the Balance Sheet date.

Re-measurement, comprising actuarial gains and losses, the return on plan assets (excluding amounts included in net interest on the net defined benefit liability or asset) and any change in the effect of asset ceiling (if applicable) is recognised in other comprehensive income and is reflected in retained earnings and the same is not eligible to be reclassified to profit or loss.

Defined benefit costs comprising current service cost, past service cost and gains or losses on settlements are recognised in the Statement of Profit and Loss as employee benefit expenses. Interest cost implicit in defined benefit employee cost is recognised in the Statement of Profit and Loss under finance cost. Gains or losses on settlement of any defined benefit plan are recognised when the settlement occurs. Past service cost is recognised as expense at the earlier of the plan amendment or curtailment and when the Company recognizes related restructuring costs or termination benefits.

In case of funded plans, the fair value of the plan assets is reduced from the gross obligation under the defined benefit plans to recognize the obligation on a net basis.

iii. Long term employee benefits:

The obligation recognised in respect of long term benefits such as long term compensated absences is measured at present value of estimated future cash flows expected to be made by the Company and is recognised in a similar manner as in the case of defined benefit plans vide (ii) (b) above.

iv. Termination benefits:

Termination benefits such as compensation under employee separation schemes are recognised as expense when the Company's offer of the termination benefit is accepted or when the Company recognises the related restructuring costs whichever is earlier.

1.9 Financial Instruments:

Financial assets and financial liabilities are recognised in the Company's balance sheet when the Company becomes a party to the contractual provisions of the instrument.

Recognised financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at FVTPL) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at FVTPL are recognised immediately in profit or loss.

A financial asset and a financial liability is offset and presented on net basis in the balance sheet when there is a current legally enforceable right to set-off the recognised amounts and it is intended to either settle on net basis or to realize the asset and settle the liability simultaneously.

1.10 Write off:

Loans and debt securities are written off when the Company has no reasonable expectations of recovering the financial asset (either in its entirety or a portion of it). This is the case when the Company determines that the borrower does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. A write-off constitutes a de-recognition event. The Company may apply enforcement activities to financial assets written off. Recoveries resulting from the Company's enforcement activities will result in impairment gains.

1.11 Impairment:

The Company recognizes loss allowances for ECLs on the following financial instruments that are not measured at FVTPL:

- Loans and advances to customers;
- Debt investment securities;
- Trade and other receivable;
- Lease receivables;
- Irrevocable loan commitments issued; and
- Financial guarantee contracts issued.

Credit-impaired Financial Assets

A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred. Credit-impaired financial assets are referred to as Stage 3 assets. Evidence of credit impairment includes observable data about the following events:

- significant financial difficulty of the borrower or issuer;
- a breach of contract such as a default or past due event;
- the lender of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession that the lender would not otherwise consider;
- the disappearance of an active market for a security because of financial difficulties; or
- the purchase of a financial asset at a deep discount that reflects the incurred credit losses.

It may not be possible to identify a single discrete event—instead; the combined effect of several events may have caused financial assets to become credit-impaired. The Company assesses whether debt instruments that are financial assets measured at amortised cost or FVTOCI are credit-impaired at each reporting date. To assess if corporate debt instruments are credit impaired, the Company considers factors such as bond yields, credit ratings and the ability of the borrower to raise funding.

A loan is considered credit-impaired when a concession is granted to the borrower due to a deterioration in the borrower's financial condition, unless there is evidence that as a result of granting the concession the risk of not receiving the contractual cash flows has reduced significantly and there are no other indicators of impairment. For financial assets where concessions are contemplated but not granted the asset is deemed credit impaired when there is observable evidence of credit-impairment including meeting the definition of default. The definition of default (see below) includes unlikelihood to pay indicators and a back-stop if amounts are overdue for 90 days or more.

1.12 Cash and Bank balances:

Cash and bank balances also include fixed deposits, margin money deposits, earmarked balances with banks and other bank balances which have restrictions on repatriation. Short term and liquid investments being subject to more than insignificant risk of change in value, are not included as part of cash and cash equivalents.

1.13 Securities premium account:

i. Securities Premium includes:

- The difference between the face value of the equity shares and the consideration received in respect of shares issued pursuant to Issue of Equity Shares or Stock Option Scheme.
 - The fair value of the stock options which are treated as expense, if any, in respect of shares allotted pursuant Issue of Equity Shares or to Stock Options Scheme.
- ii. The issue expenses of securities which qualify as equity instruments are written off against securities premium account.

1.14 Borrowing Costs:

Borrowing costs include interest expense calculated using the effective interest method, finance charges in respect of assets acquired on finance lease and exchange differences arising from foreign currency borrowings, to the extent they are regarded as an adjustment to interest costs.

Borrowing costs net of any investment income from the temporary investment of related borrowings, that are attributable to the acquisition, construction or production of a qualifying asset are capitalised as part of cost of such asset till such time the asset is ready for its intended use or sale. A qualifying asset is an asset that necessarily requires a substantial period of time to get ready for its intended use or sale. All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

1.15 Accounting and reporting of information for Operating Segments:

Operating segments are those components of the business whose operating results are regularly reviewed by the chief operating decision making body in the Company to make decisions for performance assessment and resource allocation. The reporting of segment information is the same as provided to the management for the purpose of the performance assessment and resource allocation to the segments. Segment accounting policies are in line with the accounting policies of the Company.

1.16 Foreign Currencies:

- i. The functional currency and presentation currency of the Company is Indian Rupee. Functional currency of the Company and foreign operations has been determined based on the primary economic environment in which the Company and its foreign operations operate considering the currency in which funds are generated, spent and retained.
- ii. In currencies other than the Company's functional currency are recorded on initial recognition using the exchange rate at the transaction date. At each Balance Sheet date, foreign currency monetary items are reported at the prevailing closing spot rate. Non-monetary items that are measured in terms of historical cost in foreign currency are not retranslated.

Exchange differences that arise on settlement of monetary items or on reporting of monetary items at each Balance Sheet date at the closing spot rate are recognised in the Statement of Profit and Loss in the period in which they arise.

- iii. Financial statements of foreign operations whose functional currency is different than Indian Rupees are translated into Indian Rupees as follows –
- A. assets and liabilities for each Balance Sheet presented are translated at the closing rate at the date of that Balance Sheet;
 - B. income and expenses for each income statement are translated at average exchange rates; and
 - C. all resulting exchange differences are recognised in other comprehensive income and accumulated in equity as foreign currency translation reserve for subsequent reclassification to profit or loss on disposal of such foreign operations.

1.17 Taxation:**Current Tax:**

Tax on income for the current period is determined on the basis of taxable income (or on the basis of book profits wherever minimum alternate tax is applicable) and tax credits computed in accordance with the provisions of the Income Tax Act, 1961 and based on the expected outcome of assessments/appeals.

Deferred Tax:

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the Company's financial statements and the corresponding tax bases used in computation of taxable profit and quantified using the tax rates and laws enacted or substantively enacted as on the Balance Sheet date.

Deferred tax assets are generally recognised for all taxable temporary differences to the extent that is probable that taxable profit will be available against which those deductible temporary differences can be utilized. The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets relating to unabsorbed depreciation/business losses/losses under the head "capital gains" are recognised and carried forward to the extent of available taxable temporary differences or where there is convincing other evidence that sufficient future taxable income will be available against which such deferred tax assets can be realized. Deferred tax assets in respect of unutilized tax credits which mainly relate to minimum alternate tax are recognised to the extent it is probable of such unutilized tax credits will get realized.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of reporting period, to recover or settle the carrying amount of its assets and liabilities.

Transaction or event which is recognised outside profit or loss, either in other comprehensive income or in equity, is recorded along with the tax as applicable.

1.18 Provisions, Contingent Liabilities and Contingent Assets:

Provisions are recognised only when:

- i. an Company entity has a present obligation (legal or constructive) as a result of a past event; and
- ii. it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation; and
- iii. a reliable estimate can be made of the amount of the obligation

Provision is measured using the cash flows estimated to settle the present obligation and when the effect of time value of money is material, the carrying amount of the provision is the present value of those cash flows. Reimbursement expected in respect of expenditure required to settle a provision is recognised only when it is virtually certain that the reimbursement will be received.

Contingent liability is disclosed in case of:

- i. a present obligation arising from past events, when it is not probable that an outflow of resources will be required to settle the obligation; and
- ii. a present obligation arising from past events, when no reliable estimate is possible.

Contingent assets are disclosed where an inflow of economic benefits is probable. Provisions, contingent liabilities and contingent assets are reviewed at each Balance Sheet date.

Where the unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received under such contract, the present obligation under the contract is recognised and measured as a provision.

1.19 Statement of Cash Flows:

Statement of cash flows is prepared segregating the cash flows into operating, investing and financing activities. Cash flow from operating activities is reported using indirect method adjusting the net profit for the effects of:

- i. changes during the period in operating receivables and payables transactions of a non-cash nature;
- ii. non-cash items such as depreciation, provisions, deferred taxes, unrealized gains and losses; and
- iii. all other items for which the cash effects are investing or financing cash flows.

Cash and cash equivalents (including bank balances) shown in the Statement of Cash Flows exclude items which are not available for general use as on the date of Balance Sheet.

1.20 Key source of estimation:

The preparation of financial statements in conformity with Ind AS requires that the management of the Company makes estimates and assumptions that affect the reported amounts of income and expenses of the period, the reported balances of assets and liabilities and the disclosures relating to contingent liabilities as of the date of the

financial statements. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates include useful lives of property, plant and equipment & intangible assets, expected credit loss on loan books, future obligations in respect of retirement benefit plans, fair value measurement etc. Difference, if any, between the actual results and estimates is recognised in the period in which the results are known.

1.21 Changes in Accounting Standard and recent accounting pronouncements (New Accounting Standards issued but not effective):

On March 30, 2021, the Ministry of Corporate Affairs issued the Companies (Indian Accounting Standards) (Amendments) Rules, 2019, notifying Ind AS 116 on Leases. Ind AS 116 would replace the existing leases standard Ind AS 17. The standard sets out the principles for the recognition, measurement, presentation and disclosures for both parties to a contract, i.e. the lessee and the lessor. Ind AS 116 introduces a single lease accounting model and requires a lessee to recognise assets and liabilities for all leases with a term of more than 12 months, unless the underlying asset is of low value. Currently for operating lease, rentals are charged to the statement of profit and loss. The Company is currently evaluating the implication of Ind AS 116 on the financial statements.

The Companies (Indian Accounting Standards) Amendment Rules, 2019 notified amendments to the following accounting standards. The amendments would be effective from April 1, 2019

- a) Ind AS 12, Income taxes — Appendix C on uncertainty over income tax treatments
- b) Ind AS 19— Employee benefits
- c) Ind AS 23 – Borrowing costs
- d) Ind AS 28— investment in associates and joint ventures
- e) Ind AS 103 and Ind AS 111 — Business combinations and joint arrangements
- f) Ind AS 109 — Financial instruments

The Company is in the process of evaluating the impact of such amendments.

1.22 Inventories

Inventories have been valued at the method prescribed in the Accounting Standards.

1.23 Other Income Recognition

Interest on Loan is booked on a time proportion basis taking into account the amounts invested and the rate of interest.

Dividend income on investments is accounted for when the right to receive the payment is established.

1.24 Purchases

Purchase is recognized on passing of ownership in share based on broker's purchase note.

1.25 Expenditure

Expenses are accounted for on accrual basis and provision is made for all known losses and liabilities.

1.26 Investments

Current investments are stated at the lower of cost and fair value. Long-term investments are stated at cost. A provision for diminution is made to recognize a decline, other than temporary, in the value of long-term investments. Investments are classified into current and long-term investments.

Investments that are readily realizable and are intended to be held for not more than one year from the date, on which such investments are made, are classified as current investments. All other investments are classified as non-current investments.

1.27 Related Parties

Parties are considered to be related if at any time during the reporting period one party has the ability to control the other party or exercise significant influence over the other party in making financial and/or operating decisions.

As required by AS-18 "Related Party Disclosure" only following related party relationships are covered:

- i. Enterprises that directly, or indirectly through one or more intermediaries, control, or are controlled by, or are under common control with, the reporting enterprise (this includes holding Companies, subsidiaries and fellow subsidiaries);
- ii. Associates and joint ventures of the reporting enterprise and the investing party or venture in respect of which the reporting enterprise is an associate or a joint venture;
- iii. Individuals owning, directly or indirectly, an interest in the voting power of the reporting enterprise that gives them control or significant influence over the enterprise, and relatives of any such individual;
- iv. Key management personnel (KMP) and relatives of such personnel; and
- v. Enterprises over which any person described in (iii) or (iv) is able to exercise significant influence.

1.28 Stock In Trade

Shares are valued at cost or market value, whichever is lower. The comparison of Cost and Market value is done separately for each category of Shares.

Units of Mutual Funds are valued at cost or market value whichever is lower. Net asset value of units declared by mutual funds is considered as market value for non-exchange traded Mutual Funds.

1.29 Fair Value Hierarchy

Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 - Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

1.30 Financial Risk Management Objectives and Policies:

The Company's activities are exposed to a variety of Financial Risks from its Operations. The key financial risks include Market risk, Credit risk and Liquidity risk.

i. Market Risk:

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises mainly three types of risk, foreign currency risk, Interest rate risk and other price risk such as Equity price risk and Commodity Price risk.

ii. Foreign Currency Risk & Sensivity:

There are no Foreign Currency transactions during the financial year.

iii. Credit Risk:

Credit risk is the risk that counterparty might not honor its obligations under a financial instrument or customer contract, leading to a financial loss. The company is exposed to credit risk from its operating activities (primarily trade receivables).

iv. Trade Receivables:

Customer credit risk is managed based on company's established policy, procedures and controls. The company assesses the credit quality of the counterparties, taking into account their financial position, past experience and other factors.

Credit risk is reduced by receiving pre-payments and export letter of credit to the extent possible. The Company has a well-defined sales policy to minimize its risk of credit defaults. Outstanding customer receivables are regularly monitored and assessed. The Company follows the simplified approach for recognition of impairment loss and the same, if any, is provided as per its respective customer's credit risk as on the reporting date.

v. Liquidity Risk:

Liquidity risk is the risk, where the company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The company's approach is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when due.

1.31 Summary of Significant Accounting Policies General

- Contingent Liabilities & Commitments - Nil
- Additional Information disclosed as per Part II of the Companies Act, 2013 – Nil

1.32 Cash and cash Equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities in the balance sheet.

1.33 Earnings/(loss) per share

i. Basic earnings/ (loss) per share

Basic earnings / (loss) per share is calculated by dividing:

- the profit attributable to owners of the Company
- by the weighted average number of equity shares outstanding during the financial year.

ii. Diluted earnings / (loss) per share

Diluted earnings / (loss) per share adjusts the figures used in the determination of basic earnings per share to take into account:

- the after income tax effect of interest and other financing costs associated with dilutive potential equity shares, and
- the weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.
